hi - at Danny's request, I've requested the Web CMS staff to add you to the "Emergency Response to August 2015 Release from Gold King Mine" web area in Drupal. This is an OPA / OWC site although many outside of our office have write access to it.

Don't do anything on the site now. This is merely in case we might need your assistance at some point.

Public site URL is <http://www2.epa.gov/goldkingmine>
